

TEAM CUORSE

It is difficult to think of a better end to a workday than doing something fun together out in the fresh air.

Laughter and fellowship are themes for our course. The participants are divided into groups who then compete against each other in very playful events. The different challenges measure each group's ability to work as one...

The course normally has 3-15 different challenges. Solving the problems requires smart thinking instead of strength and/or speed.

Example challenges: "The spiders web", "TP-shuffle" or "Toxic"

Season:	All seasons
Group size:	6 – 40 persons.
For who:	Everybody 😊
Where:	On any safe surface
